Alternate Text for Testlet Images

The following pages are needed **ONLY** when administering the testlet to a student who receives the **human read aloud** support and who requires **verbal descriptions of images in addition to the text**.

Each of the following pages shows the text and images that appear on-screen during the first and second presentations of the text. The verbal descriptions of images are printed below each image and labeled "Alt text."

- If alternative text that describes the image is provided, read the description exactly as it appears on this document, after reading the text on the screen.
- If "Do not describe" is used, it means do not describe the image at all. Doing so may cue the answer or alter the test.
- If "N/A" is used, it means there is no image to describe.
- If "Item #," "Stem," or "Option #" are used, read the description after each label.

See the Test Administration Manual for more instructions on how to provide human read aloud support.

Tom Goes Camping
