Sample ELA RI.5.8 T 1656

Testlet Information Page: ELA1656

Testlet Type: Computer-delivered
Number of Items: 4

Materials Needed: None

Materials Use: None

Suggested Substitute Materials: None

DLM Text Title: The Importance of Water
Type of Text: Reading Informational Text
DLM Source Book: Tuck Everlasting

Familiar or Unfamiliar? Unfamiliar

Accessibility supports NOT allowed:
Follow your state's guidance on the use of language translation.

Other comments: None
Alternate Text for Testlet Images

The following pages are needed ONLY when administering the testlet to a student who receives the human read aloud support and who requires verbal descriptions of images in addition to the text.

Each of the following pages shows the text and images that appear on-screen during the first and second presentations of the text. The verbal descriptions of images are printed below each image and labeled "Alt text."

- If alternative text that describes the image is provided, read the description exactly as it appears on this document, after reading the text on the screen.
- If “Do not describe” is used, it means do not describe the image at all. Doing so may cue the answer or alter the test.
- If “N/A” is used, it means there is no image to describe.
- If "Item #," "Stem," or "Option #" are used, read the description after each label.

See the Test Administration Manual for more instructions on how to provide human read aloud support.
The importance of Water

Water is everywhere.

You can see water in many places.

There are waterfalls.
Here are rivers.

Here are lakes.

Here are oceans.

Water freezes into ice. Icebergs are frozen water.
Water is also an important resource.

A resource is something that is used by many people and animals.

People can play in water.

People can feel water when it rains.
Many things need water to survive.

Trees need water to grow.

Fish live in water.

Animals drink water.
All animals need water. Animals need water to live.

People need water too.

People need to drink water every day.

Water is an important resource.
