

This document includes information about the familiar texts used in single-Essential Element testlets in eighth-grade DLM assessments. In the Dynamic Learning Maps® (DLM®) alternate assessment, students with the most complex needs are given the opportunity to become familiar with the books they will encounter in the assessment. These familiar texts are used in all Initial Precursor testlets and in some other linkage levels for some EEs. Unfamiliar texts are used in some linkage levels for some EEs where access to the text prior to administration is not necessary for the student to demonstrate their understanding. Descriptions of the texts and their features are provided for each EE and linkage level. Educators are encouraged to use this information as a resource for planning instruction.

The familiar text information is grouped by EE. Reading Literature (RL) EEs use stories. Reading Information (RI) EEs use informational texts. Language (L) EEs use both stories and informational texts. Links to each familiar text are included in the document. Teachers and others are free to use familiar texts in instruction.
