

## Guide to Practice Activities & Released Testlets

### English Language Arts and Mathematics – Instructionally Embedded Model

#### INTRODUCTION

The Dynamic Learning Maps® (DLM®) Alternate Assessment System provides educators and students with the opportunity to prepare for assessments by using practice activities and released testlets.

- **Practice activities** are designed to familiarize users with the way testlets look in the Kite® system. One activity is for educators and the other is for students.
- **Released testlets** are similar to the real DLM testlets in content and format. A released testlet is a publicly available, sample DLM assessment. Students and educators can use released testlets as examples or opportunities for practice. Released testlets are developed using the same standards and methods used to develop testlets for the DLM operational assessments. New released testlets are added periodically.

Access practice activities and released testlets through Kite Student Portal in the practice section. Use login information provided in this guide to complete both types of activities as many times as desired.

HINT: Some released testlets are available as PDFs on the DLM website at the following link:  
<http://www.dynamiclearningmaps.org/about/tests/releasedtestlets>. Student Portal does not need to be installed on a computer to view these items.

Users who have questions or problems accessing the practice activities and released testlets should contact their assessment coordinator or technology personnel.

#### DEMO STUDENT ACCOUNTS FOR PRACTICE ACTIVITIES AND RELEASED TESTLETS

Practice activities and released testlets are only available through demo student accounts. The demo student accounts listed below are enrolled in all available practice activities and released testlets. The practice activities and released testlets have certain Personal Needs and Preferences (PNP) Profile settings turned on depending on the account, as indicated in the table below.

| Name         | Password | PNP Profile Supports Turned On   |
|--------------|----------|--|
| demo.sue28   | sand3    | Spoken audio: voice source = synthetic, read at start = false, spoken preference = text and graphics, audio for directions only = false.<br><br>Contrast color: Green text on white background |
| demo.sue29   | wall3    | None*  |
| demo.sue30   | swept    | Single-switch: scan speed = 4 seconds, auto scan = manual override, auto repeat scan frequency = infinity  |
| demo.sue31   | topic    | 2x magnification   |
| demo.sue33   | void7    | 4x magnification and invert color choice   |
| demo.sue34   | nine7    | Color overlay (green)  |
| demo.sue35   | jar71    | Single-switch: scan speed = 5 seconds, initial delay = 5 seconds, auto repeat scan frequency = 2   |
| demo.sue36   | stop3    | Spoken audio: voice source = synthetic, read at start = false, spoken preference = NonVisual, audio for directions only = false.   |
| demo.sue37   | after    | 5x magnification   |
| demo.lisa.25 | bank9    | N/A; Writing testlets are available with this account  |

\*No special settings are required for two-switch users. Use **Tab** to navigate, and **Enter** to select. Two-switch users may use any of the demo logins above except demo.sue30 and demo.sue35 because those two logins are especially for single-switch scanning users.

The ACCESSIBILITY MANUAL describes the PNP Profile settings in detail.

## ACCESSING PRACTICE ACTIVITIES AND RELEASED TESTLETS

HINT: Kite Student Portal must be installed before you can access practice activities or released testlets. Download information is available on the Kite Suite page of the Dynamic Learning Maps website ([www.dynamiclearningmaps.org](http://www.dynamiclearningmaps.org)).

To access practice activities and released testlets, follow these steps:

1. Click the **Kite Student Portal** icon on the testing device.

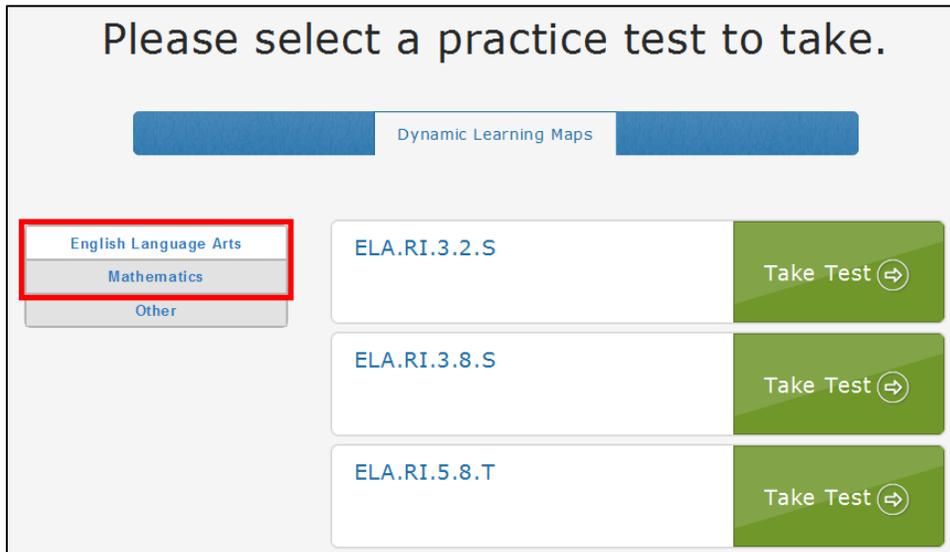

2. Enter the demo student's username and password; click **SIGN IN**.

The login screen for the Kite Student Portal. It features a white background with a blue sky and colorful kites. The Kite logo is at the top left. Below it, the text "Kite STUDENT PORTAL" is displayed. A red banner says "Welcome Back!". There are two input fields: "USERNAME" and "PASSWORD". A blue button with "SIGN IN" and a right-pointing arrow is at the bottom. A small copyright notice "© 2018 University of Kansas. All Rights Reserved." is at the bottom center.

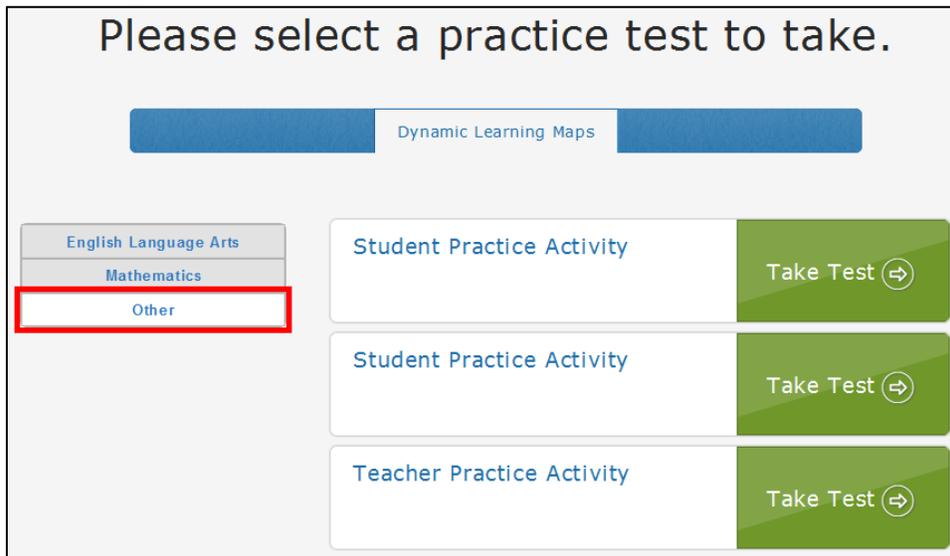

3. Click **PRACTICE FIRST**.

The dashboard of the Kite Student Portal. At the top left is the Kite logo and "STUDENT PORTAL". At the top right is a "Sign Out" button. The main text says "Welcome back, First1095593!". Below this are two large buttons: a green one with a pencil icon and "TAKE A TEST" with a right-pointing arrow, and a blue one with a calculator icon and "PRACTICE FIRST" with a right-pointing arrow. A small copyright notice "© 2018 University of Kansas. All Rights Reserved." is at the bottom center.

- To access released testlets, click the appropriate subject and scroll to the desired testlet.

- To access practice activities, click **Other**.

- Click **Take Test** next to the desired released testlet or practice activity.
- Click **BEGIN**.
- Continue with the testlet, navigating using the **BACK** and **NEXT** buttons. To stop in the middle of a testlet, click **EXIT DOES NOT SAVE**.

- To try a different practice activity or released testlet, either complete a testlet or click **EXIT DOES NOT SAVE** to return to the welcome screen. To try a different demo student's credentials, log out and log back in with the different username and password.

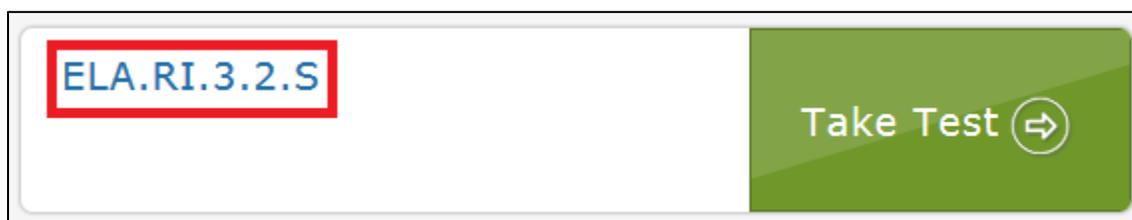

## RELEASED TESTLETS FOR ENGLISH LANGUAGE ARTS AND MATHEMATICS

A released testlet is a publicly available, sample DLM assessment. Released testlets can be used by students and educators as examples or opportunities for practice. Released testlets are developed using the same standards and methods used to develop testlets for the DLM operational assessments. New released testlets are added periodically.

Remember that testlets for English language arts and mathematics contain items that align to nodes at the designated linkage level. The linkage levels in ELA and mathematics are

- Initial Precursor (IP)
- Distal Precursor (DP)
- Proximal Precursor (PP)
- Target (T)
- Successor (S)

In Student Portal, released testlets are labeled by subject, grade, Essential Element, and linkage level.

In the image above, the labels are

| Subject   | Grade | Section & Level Codes          | Linkage Level |
|---|-------|--------------------------------|---------------|
| ELA RI = English language arts Reading Informational Text | 3     | 2 = Identify details in a text | S = Successor |

Each released testlet is at a grade level and a linkage level. Select a testlet at the grade level and linkage level appropriate for your student. To see more available testlets in Student Portal, scroll to the bottom of the screen where you can then go to page 2 of the list.

For more information on the Essential Elements, linkage levels, and nodes used in assessments, go to the Educator Resource Page on the DLM website ([www.dynamiclearningmaps.org](http://www.dynamiclearningmaps.org)).

## PRACTICE ACTIVITIES

### *TEACHER PRACTICE ACTIVITY*

The teacher practice activity is a tutorial about testlets that are administered directly by the educator. Teacher-administered testlets are typically for students with presymbolic communication who cannot interact directly with the computer. These testlets are at the Initial

Precursor linkage level in ELA and mathematics. Some mathematics testlets at higher linkage levels are also teacher-administered when the content is difficult to assess on the computer. In this type of testlet, the educator reads the instructions aloud on the testlet screens and follows them. The educator enters the student's responses to activities or exchanges that occur outside the system into Student Portal. All writing testlets for all linkage levels at all grade levels are also teacher-administered.

### ***STUDENT PRACTICE ACTIVITY***

The student practice activity is a tutorial on testlets that are administered directly to the student. Computer-delivered testlets are used when the content can be assessed directly by computer, **and** the student can interact with the system directly and select their own responses, using assistive devices or other supports as needed.

Testlets at the Distal Precursor, Proximal Precursor, Target, and Successor linkage levels in ELA and mathematics are typically computer-delivered.

Students may navigate using a mouse, Tab and Enter on a keyboard, or switches. If the student can engage with the content but cannot advance the screens or input responses independently, the educator may navigate the screens and record the student's responses on their behalf. More information about allowable practices is provided in the TEST ADMINISTRATION MANUAL.

There are several types of items in the student practice activity:

- Multiple-choice items, in which the student selects one or more responses
- Sorting items, in which the student selects and moves objects from one place to another (Some of these items require the student to click the selection and the destination, while others require students to drag and drop an image. Students who use switches may need help navigating these items.)
- Matching items, in which the student identifies how pairs of items are related to one another

Students may go forward and backward within a testlet as much as needed.

### **RELEASED TESTLETS FOR SCIENCE**

Science also has practice activities and released testlets. If your state assesses DLM science, you can find them in the Guide to Practice Activities & Released Testlets for Science on the Science Resources page of the DLM website ([https://dynamiclearningmaps.org/sci\\_resources](https://dynamiclearningmaps.org/sci_resources)).
