# Professional Development Webinar Event

Join the DLM Professional Development team from UNC Chapel Hill for monthly, interactive webinars designed to address your questions about instruction and connect you with other teachers who are working to provide instruction aligned with the DLM Essential Elements in English language arts and mathematics.

This spring, we will focus specifically on students with more complex needs who complete the DLM assessment at the Initial and Distal Precursor linkage levels.

Prior to each webinar, participants are encouraged to review or complete the modules listed for each session found at <http://dlmpd.com/>. Webinars will begin with a brief overview of recommended modules, but the emphasis will be on Q&A. This webinar will be close-captioned.

For the best viewing experience, please do not use Chromebooks or the Android app for Skype for Business.

**January 23, 2019 | 3:30 p.m. (Central Time)**  
**English Language Arts**

## Modules addressed:

**Beginning Communicators** ([Beginning Communicators Module](#))

**Symbols** ([Symbols Module](#))

## Join us at:
