

Released Testlet

Science 5.LS.EcoHlth-2 DP

Subject: Science

Grade: Elementary

Linkage Level: Distal Precursor

Essential Element: Ask questions to determine how living things (both plants and animals) impact the habitat in which they live.

Linkage Level Assessed: Identify and respond to simple questions to determine the differences between living (i.e., animals) and nonliving (i.e., neither plants nor animals) things to identify whether a thing is living or nonliving.
