Mission

To prepare Kansas students for lifelong success through rigorous, quality academic instruction, career training and character development according to each student's gifts and talents.

Vision

Kansas leads the world in the success of each student.

Motto

Kansans Can

Success defined

A successful Kansas high school graduate has the academic preparation, cognitive preparation, technical skills, employability skills and civic engagement to be successful in postsecondary education, in the attainment of an industry recognized certification or in the workforce, without the need for remediation.

Outcomes

- Social-emotional growth
- Kindergarten readiness
- Individual Plan of Study
- Civic engagement
- Academically prepared for postsecondary
- High school graduation
- Postsecondary success

The Kansas State Board of Education does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities and provides equal access to any group officially affiliated with the Boy Scouts of America and other designated youth groups. The following person has been designated to handle inquiries regarding the nondiscrimination policies: KSDE General Counsel, Office of General Counsel, KSDE, Landon State Office Building, 900 S.W. Jackson, Suite 102, Topeka, KS 66612, (785) 296-3201.

March 17, 2022

HOW TO CREATE INSTRUCTIONAL PLANS FOR THE DLM ALTERNATE ASSESSEMENT

The following information is taken from the *Dynamic Learning Maps Educator Portal User Guide*. Please refer to that guide for more detailed information. No real student data is used in this guide.

Using the Instruction and Assessment Planner

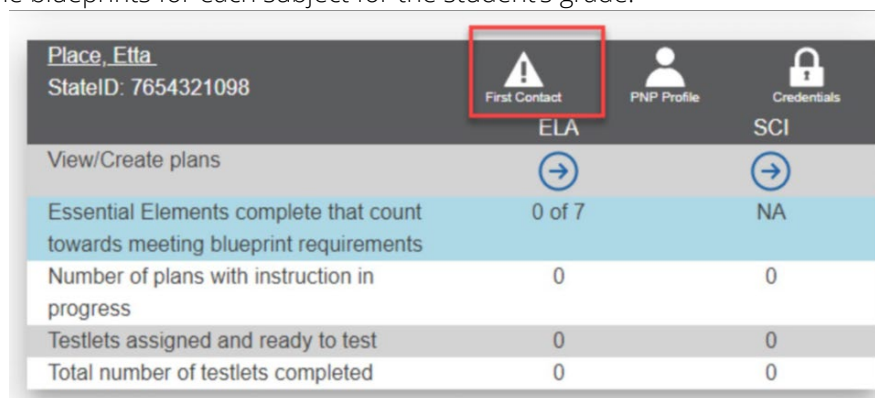

Student Activity Table

1. Select **Manage Tests**.
2. Select **Instruction and Assessment Planner** from the drop-down menu.
3. The first screen is the student activity table – this is where all students rostered to a teacher appear. Teachers may choose to filter by grade or student name. A student's first contact survey, personal needs and preferences profile and credentials (student's username and password) can be accessed from the student activity table. A Dashboard for each student's instructionally embedded testing activity is included.

The screenshot shows the Kite Educator Portal interface. At the top, it says "Logged in as Nancy Keating, Sign Out". Below this are dropdown menus for "Role: Teacher", "Organization: Mike R School 1", and "Assessment Program: DLM". There are three tabs: "SETTINGS", "MANAGE TESTS", and "HELP". Below the tabs are filters for "GRADE:" (a dropdown menu with "Select" and "Select All" options) and "STUDENT NAME:" (a text input field with "Select" and "Select All" options). A "Search" button is to the right of the filters. The main content area displays a table of student activity for Grade 5 students. Two students are shown: Bassett, Ann (StateID: 6543210987) and Longabaugh, Harry A (StateID: 8765432109). Each student's row includes a "View/Create plans" link, a "First Contact" checkbox, and a table of progress for ELA, MATH, and SCI. The table for Bassett, Ann shows progress for ELA (0 of 7), MATH (0 of 7), and SCI (NA). The table for Longabaugh, Harry A shows progress for ELA (0 of 7) and MATH (0 of 7), with SCI (NA). The table also includes rows for "Essential Elements complete that count towards meeting blueprint requirements", "Number of plans with instruction in progress", "Testlets assigned and ready to test", and "Total number of testlets completed".

Student Name	StateID	First Contact	ELA	MATH	SCI
Bassett, Ann	6543210987	<input checked="" type="checkbox"/>	0 of 7	0 of 7	NA
Longabaugh, Harry A	8765432109	<input checked="" type="checkbox"/>	0 of 7	0 of 7	NA

4. First Contact Survey must be completed prior to creating an instructional plan. A triangular caution symbol indicates an incomplete First Contact Survey. Click it to navigate to the first contact survey for completion. Once the first contact survey is completed, the caution icon will change to a checkmark. The teacher can then click the arrow under the subject headings to access the blueprints for each subject for the student's grade.

	ELA	SCI
Essential Elements complete that count towards meeting blueprint requirements	0 of 7	NA
Number of plans with instruction in progress	0	0
Testlets assigned and ready to test	0	0
Total number of testlets completed	0	0

Student View Page

The student view page for each subject has two main sections: Informational area and Blueprint.

Informational Area

Mike R District 1 / Mike R School 1 / English Language Arts

Fall Window

Place, Etta
State ID: 7654321098

Select an Essential Element and linkage level.

After completing all blueprint requirements, you may receive a field test testlet. To access the Testlet Information Page for the field test, go to the [Test Management](#) tab.

Between the close of the Fall window and the opening of the Spring window, you may still view student plans and print the Fall Essential Element Status Report. No other work may be completed.

Instruction in Progress
 Testlet Assigned
 Testing in Progress
 Complete
 Recommended Linkage Level
 Mastery Demonstrated
 Mastery Not Demonstrated
 Results Not Available

The Informational Area includes directions, reminders, links to student information (enrollment, First Contact survey, PNP, and Credentials). Clicking on Themes allows the teacher to select all themes that may be sensitive to the student for ELA. This only needs to be done one time. Clicking on Print allows the user to print the blueprint for the specific student. It is recommended to print the fall report at the conclusion of the fall window and the spring report at the conclusion of the spring window. Icons and descriptions used in the planner are also included here.

Blueprint

Choose at least three EEs in C1.1, including at least one RL and one RI.

Claim: ELA.C1 Students can comprehend text in increasingly complex ways.
Conceptual Area: ELA.C1.1 Determine critical elements of text

Incomplete

Essential Element	Initial Precursor	Distal Precursor	Proximal Precursor	Target	Successor
ELA.EE.RI.4.1 Identify explicit details in an informational text.	understand object names	name or identify objects in pictures Testlet Assigned 06/28	identify concrete detail in informational text	identify explicit text details and words	identify explicit text details and words
ELA.EE.RI.4.2 Identify the main idea of a text when it is explicitly stated.	understand object names	name or identify objects in pictures	identify concrete details in informational texts	identify text topic and related details	identify topic-related words in informational text
ELA.EE.RI.4.3 Identify an explicit detail that is related to an individual, event or idea in a historical, scientific, or technical text.	understand object names	use category knowledge to draw conclusions	identify concrete details in an informational text	understand concrete details (person, place, idea)	understand key details
ELA.EE.RI.4.5 Identify elements that are characteristic of informational texts.	determine similar or different	name or identify objects in pictures	understands purpose of pictures	recognize informational text characteristics	understand structural purpose of text

Blueprint requirements are display for each subject by conceptual area. Each conceptual area displays its criterion at the top of the screen, (Choose at least 3 EEs in C1.1, including at least one RL and one RI. The **Kansas Blueprint/Selection Record** breaks this down further to ensure the blueprint requirement is met.

Instruction and Assessment Planner

Kansas Blueprint/Selection Record

Choose two EEs from Claim 1 in different conceptual areas, i.e., one EE in C1.1 and one EE in C1.3.

Claim: M.C1 NUMBER SENSE: Students demonstrate increasingly complex understanding of number sense.
Conceptual Area: M.C1.1 Understand number structures (counting, place value, fraction)

Incomplete

Essential Element	Initial Precursor	Distal Precursor	Proximal Precursor	Target	Successor
3.NBT.1.2 Demonstrate understanding of place value to tens.	recognize a set, recognize representations	recognize unit, recognize ten as a group...ones	compose numbers by recognizing tens and ones	know place value for ones and tens	relate rounding and place value; compose numbers
3.NBT.1.3 Count by tens using models such as objects, base ten blocks, or money.	identify before or after	compose number sequence patterns	count verbally or using objects to 10	skip count by 10s	skip count by 10s using repeated...ones
3.NF.1.3 Differentiate a fractional part from a whole.	recognize "same"	recognize wholeness and representations	divide shapes into distinct parts	recognize parts of whole/unit, know unit fraction	recognize fraction, whole, and one-half

Conceptual Area: M.C1.3 Calculate accurately and efficiently using simple arithmetic operations

Essential Element	Initial Precursor	Distal Precursor	Proximal Precursor	Target	Successor
3.OA.4.4 Solve addition and subtraction problems when result is unknown, limited to operands and results within 20.	recognize separate objects and objects in a set	compose/partition sets; know addition/subtraction	know addition, subtraction, and equal signs	determine unknowns in addition/subtraction equations	relate addition and subtraction problems...ones

Example: In 3th grade math one of the requirements state choose 2 EEs from 2 different conceptual areas. There are 4 total EEs to choose from, however, the 2nd conceptual area only has 1 EE. Therefore, that EE is a must test. The Kansas blueprint reflects this so that teachers are clear when they must test a specific EE.

ESSENTIAL ELEMENTS BLUEPRINT/SELECTION DATA

GRADE 3

Student name: _____

Year: _____

Math

Available Essential Elements and minimum expectation for each student's assessment.

1. Students demonstrate increasingly complex understanding of number sense.

CONCEPTUAL AREA	ESSENTIAL ELEMENT	CHOOSE 1: DESCRIPTION	FALL WINDOW 9/14/2020-12/18/2020	DATE CHOSEN	LINKAGE LEVEL	DATE ASSESSED	DI
M.C1.1	3.NBT.2	Demonstrate understanding of place value to tens.					
	3.NBT.3	Count by tens using models such as objects, base ten blocks, or money.					
	3.NF.1-3	Differentiate a fractional part from a whole.					
CONCEPTUAL AREA	ESSENTIAL ELEMENT	MUST TEST: DESCRIPTION	FALL WINDOW 9/14/2020-12/18/2020	DATE CHOSEN	LINKAGE LEVEL	DATE ASSESSED	DI
M.C1.3	3.OA.4	Solve addition and subtraction problems when result is unknown, limited to operands and results within 20.					

1. Choose Essential Elements (EEs) in the appropriate linkage level according to the blueprint requirements detailed listed at the top of each requirement section (remember the Kansas Blueprint/Selection Record identifies which EEs are a must test).

Choose at least three EEs, including at least one RL and one RI.

Claim: ELA.C1 Students can comprehend text in increasingly complex ways.

Conceptual Area: ELA.C1.1 Determine critical elements of text

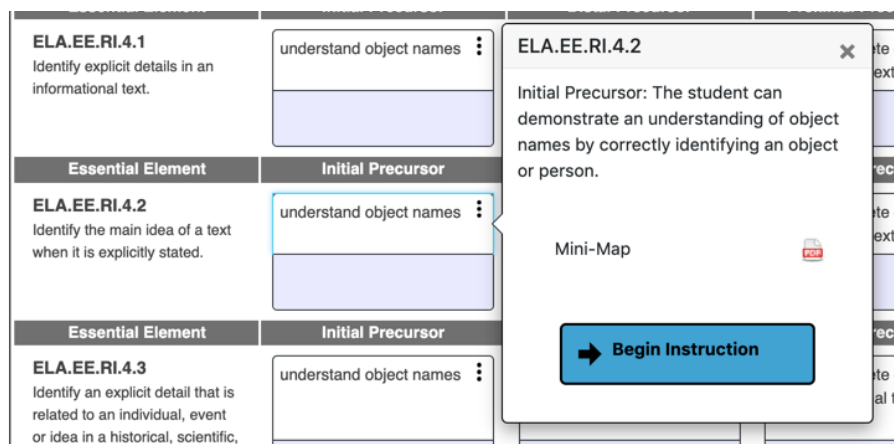

Incomplete

Essential Element	Initial Precursor 	Distal Precursor	Proximal Precursor	Target	Successor
ELA.EE.RI.3.1 Answer who and what questions to demonstrate understanding of details in a text.	attend to object characteristics  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify familiar people, objects, places, events  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify concrete details in an informational text  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify/answer questions about concrete details  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify words related to explicit information  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>
Essential Element	Initial Precursor 	Distal Precursor	Proximal Precursor	Target	Successor
ELA.EE.RI.3.2 identify details in a text.	seek absent objects  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	attend to object characteristics  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify illustrations for familiar text  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify concrete detail in informational text  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify explicit details in informational texts  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>

A bookmark icon indicates the recommended linkage level. Teachers should use their professional judgement when deciding whether to pick a different linkage level than the one the Kite system recommends. One reason a teacher might want to change the recommended linkage level is if the teacher believes a different level better describes the student's level of skill and understanding after receiving instruction. On the other hand, Teachers should not change a linkage level to check baseline or to avoid challenging the student. The DLM assessment is intended to give students opportunities to show what they have learned and can do. Mastering a target level testlet, for example, likely means the student has also mastered the skills at the lower linkage levels.

Essential Element	Initial Precursor 	Distal Precursor
ELA.EE.RI.3.1 Answer who and what questions to demonstrate understanding of details in a text.	attend to object characteristics  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>	identify familiar people, objects, places, events  <div style="background-color: #e0e0ff; height: 30px; width: 100%;"></div>

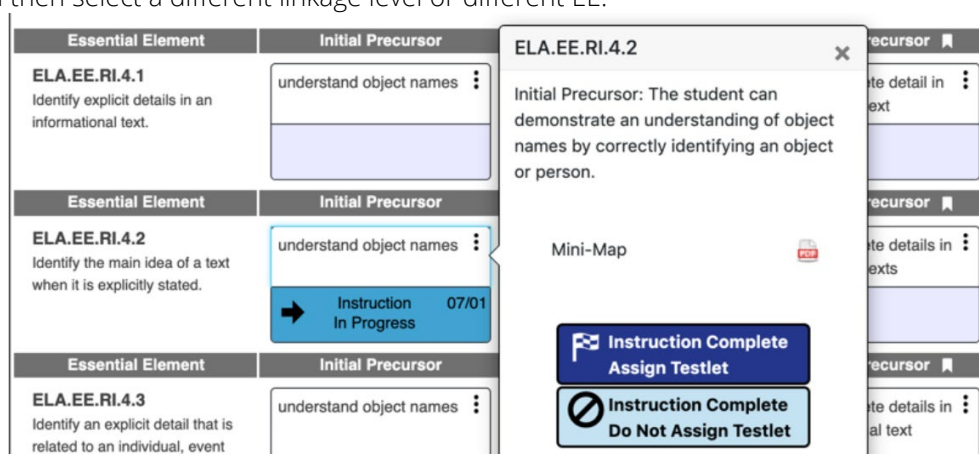

2. Select the Essential Element for instruction. Select the linkage level. For ELA and mathematics, five linkage level cards, one for each linkage level, display in each Essential Element row. Each card displays a short description of the linkage level. Science Essential Elements display only three linkage level cards.
3. Select the kebab menu (three vertical dots) icon in the appropriate linkage level card to access the pop-up box displaying the long linkage level description along with an icon that links to the mini-map for the selected EE. Download the mini-map for instructional supports. Mini maps are used to identify the skills that build to each linkage level so that a teacher can identify the skills a student currently has and the skills a student may need to be taught to progress. While a mini map is not curriculum, it provides important instructional guidance.

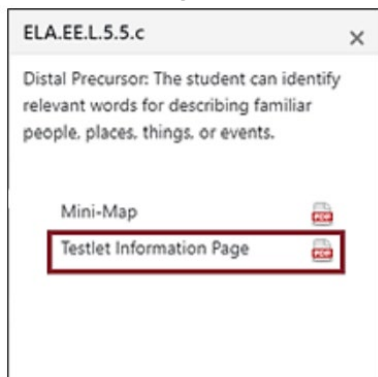

4. Select **Begin Instruction**. The card displays **Instruction in Progress** with the date. Multiple EEs may be selected. The teacher may choose to select all of the EEs to cover the blueprint requirements during an assessment window at once or wait and make those selections at later times.

5. Provide instruction outside of Educator Portal. After the test administrator believes appropriate instruction has been provided to the student, and the student is ready for the assessment, the test administrator returns to the Student View Page in the Instruction and Assessment Planner. On the linkage level card for the Essential Element, select the kebab menu on the card and select **Instruction Complete Assign Testlet**. This will deliver the testlet to Student Portal. Assigning a testlet cannot be undone. Remember each testlet typically takes 5-15 minutes to complete. If you decide not to assess the student on the EE select **Instruction Complete Do Not Assign Testlet**, you can then select a different linkage level or different EE.

- After selecting **Assign Testlet**, a pop-up box will ask the test administrator to confirm and assign a testlet. Once the testlet is assigned, the card in the Student Activity Table will display Testlet Assigned with the date. Select **Continue**.
- Once the testlet is assigned, select the kebab menu in the card to download the Testlet Information Page.

For students with Braille selected on the PNP, the Braille Ready File icon will be visible if the EE at the specific linkage level has a braille equivalent.

- After reading the Testlet Information Page and gathering the materials, administer the testlet in Student Portal. The students username and password are located under credentials.
- Once the testlet is submitted, come back to the Instruction and Assessment Planner to access the results.

The card on the Student Activity Page will update to one of three statuses.

- Testlet Complete with a star, indicating mastery (80% or higher).
- Testlet Complete with an x, indicating mastery was not achieved.
- Testlet Complete with a dash, indicating results are not yet ready. The dash will only display for writing testlets because they are scored outside of Educator Portal. Their results are published in Educator Portal in the Student Individual Score Report.

Blueprint Completion

There will be a check mark in the top right corner if the specific blueprint requirement has been fulfilled. A blue circle means the specific blueprint requirement has not been met.

The Student Activity Table updates with every action that occurs for an EE at a linkage level, showing data about the student for each subject tested. Use the back button under the Home icon in the upper left to return to the Student Activity Table.

<u>Dukes, Linton</u> State ID: 1776125	 First Contact ELA	 PNP Profile MATH	 Credentials SCI
View/Create plans			
Blueprint requirements met	4 of 4	4 of 4	NA
Number of plans with instruction in progress	2	1	0
Testlets assigned and ready to test	5	0	1
Total number of testlets completed	12	15	8

Students need to meet all blueprint requirements for each test window (fall and spring). Assessing science is optional during the fall instructionally embedded window; therefore, science will display as NA for blueprint requirements met during the fall test window.

Field Test Testlets

After the blueprint requirements are met for a student in each subject, one field test testlet may be available. To access the Testlet Information Page for the field test testlet, select the **Test Management** hyperlink on the Student View Page. This action takes the test administrator directly to the Test Management section of Educator Portal where the Testlet Information Page and the Test Ticket for the field test testlet are available. Administer the field test testlet in Student Portal using the student's credentials.
