

New Jersey DLM Test Administration Observation Form Spring 2023

Student Name:

Grade Level of Assessment:

Test Date(s):

School:

Test Subject(s):

Test Administrator:

Cite if applies to all testlets or specific ones (e.g. 1,2,...):

The purpose of this form is to document any test issues that may indicate a need to change a factor in future testing situations; for example, revising next year's PNP, changing future test location, changing the type of technology device used, etc. The form is also used to document various test conditions such as need to substitute manipulatives, delay testing due to school technology issues, student behavior impacting testlet completion, etc.

This form should be retained in district, and utilized if and when necessary during score review, planned revisions for 2022-2023, etc. You may use this form to capture general information that applies to any/all testlets, or use it to document specific testlet/subject issues. When applicable, select the "Test Subject" content area and applicable testlet (e.g. 1-9 depending on grade level and subject area); otherwise indicate related subject areas and cite "All".

This form should be shared with the District Test Coordinator, and may be shared with staff involved in test preparation for 2022-2023 administration.

1. Testing Location:

Other:

Specify changes for future administration:

2. Testing Conditions that May Have Impacted Student Testing (Select all that apply)

Behavior of the students in the classroom
